SEAT HEIGHT
810mm

GEARBOX
6 Speed

TANK CAPACITY
19 Ltr

FROM

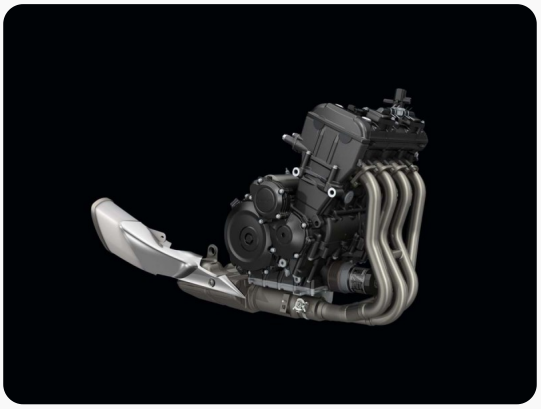
£10,999

+ OTR

GSX-S1000 FEATURES

ADVANCED SUSPENSION

A long?stroke design with a 73.4mm bore and a 59.0mm stroke allows the combustion chambers to be compact. It therefore allows a combination of an optimal compression ratio, a flat?top piston shape, and a broad spread of power throughout the rev range



POWERFUL ENGINE

Equipped with the Suzuki Clutch Assist System (SCAS), the clutch acts as a slipper clutch system when changing down rapidly. SCAS is an advanced clutch system supporting both sporty riding and less fatigue on long rides

ADVANCED BRAKING

By adopting the new Low RPM assist system, the concern of an unexpected engine stall has been relieved. This system will automatically raise the idle speed when engaging the clutch or when riding at low rpms

Colour TFT Screen

A 5 inch colour TFT instrument panel displays all the riders required information via a clean and intuitive layout. It features day and night modes which change automatically via a light sensor.
